DOHA HANINE DAOUDI

JUNIOR FULL STACK DEVELOPER | DATA ANALYTICS

Nouaceur, Casablanca, Morocco | +212 6 99 91 99 39
haninedaoduidoha@gmail.com

PROFILE

Junior full stack developer trained at CMC Casablanca-Settat, with practical experience in React, PHP and MySQL, and in preparing data and building Power BI dashboards. Contributed to a SaaS platform at GivenX and developed web projects supporting community needs. Seeking to contribute to UNDP's digital product development and data analytics work, applying technology to inclusive and sustainable development.

TECHNICAL SKILLS

Web development: HTML5, CSS3, JavaScript, React.js, Bootstrap, responsive interfaces.
Back-end and databases: PHP, Laravel, MySQL, SQL, CRUD operations, joins, relational modelling.
Data analytics: Excel data preparation and organisation; Power BI dashboards and visualisation.
Tools and methods: Git, GitHub, GitLab, Jira, Agile Scrum; algorithms, OOP, basic Python.

INTERNSHIP EXPERIENCE

Full Stack Development Intern | GivenX

March 2026 | 1 month

• Contributed to a SaaS platform for tracking servers and projects.

• Developed features using PHP and integrated React.js interfaces with back-end functionality.

• Supported front-end/back-end integration and platform tracking features.

Data Analysis Intern | OFPPT Regional Directorate, Casablanca-Settat

February 2026 | 1 month | Business Services Department

• Processed and organised data in Microsoft Excel to support departmental analysis.

• Created interactive Power BI dashboards to visualise and monitor indicators.

• Contributed to a data analysis project and the department's activities.

SELECTED PROJECTS

ATAA | Material Donation Platform

Developed a platform connecting donors and associations, with authentication, donation listings and management, donation requests and user areas. Designed to support community solidarity through material donations. Technologies: PHP, MySQL, JavaScript, Bootstrap.

Dini M3ak | Community Carpooling Platform

Developed trip listing, publishing and booking features for the CMC community, with user registration and authentication.

Vehicle Fleet Management | Team Project

Organised tasks and tracked development using Jira and the Scrum framework.
